

Lead Tracking

Revolutionary Lead Tracking Solutions

Increase Conversion Ratio with ABBY

Abby Phone Abby Web Abby Mobile

Abby is an artificial intelligence engine that can talk, listen, ask and answer questions all in a conversation. The more your leads interact with Abby, the more she learns. Abby's patented process begins with collecting prospect information. When a prospect calls in, Abby converts all speech to text, captures that information and qualifies the lead, automatically. Abby allows customers to ask open-ended questions for immediate answers or support.

Reduce Lead Costs

Abby is **simple** and **affordable**. By **automating outbound calling** and **qualifying prospects automatically**, Abby will leverage your marketing budget for the maximum amount of **hot leads**. Abby works 24/7 to **increase business productivity** and **automate key sales tasks**.

Lead Conversion

Abby will **increase your lead conversion ratio** by connecting your lead to the appropriate representative **instantly**. Whether your lead is **online or on the phone**, Abby will be there to assist them and provide the appropriate information.

Automate Follow Up

Abby can **track leads**, place phone calls, hold conversations, and input data into CRM systems. Abby will **save time** and **reduce costs** by automating these processes, sending follow-up calls, reminders and automatically **scheduling appointments**.
